

LOOKING GLASS WINES

Newsletter November 2013

This year, it was decided to produce solely the Marlborough Sauvignon Blanc.

Marlborough has been fortunate to produce yet another fantastic vintage, with a long ripening season, cool nights and timely rains.

The grapes for our current release have been blended from the Marlborough regions of Waihopai, Wairau and the Northern and Southern Awatere Valleys.

A traditional long cool fermentation maintains maximum Sauvignon Blanc character and produces a wine of complexity with layers of fruit and .

There are bright fresh aromas of zesty citrus, pears, gooseberry, tropical and stone fruits with a classic mineral with a concentrated fruit palate.

Rich, and vibrant, with balanced acidity.

A truly lively and complete wine, great sunshine drinking, with lovely length of flavours.

Looking Glass Wines continues to produce regional and truly varietal wines, dependent on vintage quality and demands. Enjoy.
